ARCHITECTURAL PAVER TILE

# EMC

A Liberty Tire Recycling Company

PRODUCT DESCRIPTION

1 (888) 836-2665

*Protect Yourself....*

*Protect your Investment*

- High Density and extremely durable yet shock absorbing providing more comfort underfoot than traditional hardscape
- Manufactured from 100% post consumer waste tires

**BENEFITS:**

- *Easy to Install* - modular design allows fully adhered or floating applications
- *Safe* - non-toxic and steel free with a slip resistant surface whether wet or dry
- *Easy to Maintain* - requires only basic cleaning with a broom, vacuum or hose
- *Attractive* - available with a Flat Top or Brick Top pattern

### TECHNICAL DATA

#### Description

**Paver Tiles** are 1/2" and 3/4" thick resilient and skid resistant rubber tiles surfacing alternative to traditional commercial flooring materials.

**Paver Tiles** are manufactured from 100% post-consumer California waste tires and provide an exceptionally durable, safe, low maintenance option to bare concrete or other hard surface materials.

#### Uses

**Paver Tiles** are ideally suited to improve the beauty, comfort and ease of maintenance in various environments including fitness centers, shopping malls, daycare centers, churches, walkways, garages and even around swimming pools.

#### Advantages

- **Paver Tiles** are exceptionally durable and resilient and provide years of performance.
- **Paver Tiles** are water permeable providing a fast drying surface that easily permits surface water to properly drain.
- **Paver Tiles** are environmentally friendly, molded from 100% California recycled waste tires diverting as many as 1 tire per tile from our landfills.
- **Paver Tiles** are safe containing no toxic materials and certified to be 99.9% steel free.
- **Paver Tiles** have a very smooth top surface providing comfort to bare feet, hands and elbows while maintaining exceptional skid resistance whether wet or dry.
- **Paver Tiles** absorb shock making them more comfortable to walk on than traditional hardscape materials.

#### Advantages (Continued)

- **Paver Tiles** are modular in design making them easy to install over sub-grades including concrete and asphalt.
- **Paver Tiles** are easy to maintain requiring only basic cleaning with a broom, vacuum or water hose on a regular basis.
- **Paver Tiles** come in a variety of colors providing a multitude of design options to meet any need.
- **Paver Tiles** are backed by the industries leading manufacturer of rubber molded safety tiles and accessories and come with a 5 Year Limited Material Warranty.

#### Product Specification

Tile Size: 23 7/8" x 23 7/8" ±1/8"

Tile Thickness: 1/2", 8.50 lb

**NOTE:** Recycled Rubber Tiles will expand and contract with changes in UV Exposure and Temperature. Size tolerance is measured at 72° Fahrenheit.

#### Finish Options

**Paver Tiles** are available with a Flat Top finish and come in a variety of standard and special order colors. SureKONNECT Pins can only be used on the 3/4" Thick paver. Full adhesive method must be used for the 1/2" Thick Paver.

- **Paver Tiles** are available in a variety of pigmented crumb rubber color selections providing a wide selection of color options to meet the most demanding design needs.
- **Paver Tiles** Architectural Paving Tiles can be installed over most hard surfaces including asphalt (better), or concrete (best) in both floating or glue down applications.

*Paver tiles must be fully adhered to a hard, stable substrate.*
